

This Month: NEW! Bosch 800 Series Compact Washer and Dryer Flexible Installation. German Engineering. Bosch Performance.

Commitment to Quality. That's the thinking behind Bosch's German engineered 24" washer and dryer. The matching laundry units are the optimal luxury upgrade to any home. Bosch laundry products offer the perfect combination of function and style.

What's NEW? Introducing the only connected compact washer and dryer in the market, our new 800 Series laundry pair with home connect allows you to:

- Control you washer and dryer remotely.
- Receive status updates to know when your cycle is complete.
- Receive energy and water consumption for each program.
- EasyStart recommends the best cycle for your clothes.

Save money with our flexible installation:

\$ No Additional Power Outlets or Wall Receptacles Needed

Bosch washers plug into the dryer so only one wall receptacle is needed, saving you the cost of additional power outlets.

\$\$ No Ducting Needed

Our condensation drying system requires no ducting which saves you money.

\$\$\$ No Leak Risk

A sump pan may no longer be needed** with our Aquastop Plus and Aquashield water leak protection systems.

**Check local building codes for complete requirements.

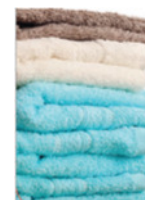

Additional Features

15 minute wash cycle and **15 minute** dry cycle.

Energy Star Qualified

Holds up to 18 bath towels

More saving.
More doing.

BOSCH
Invented for life

How does the Bosch Condensation Dryer work?

It uses an eco-friendly solution to gently dry clothes at an optimal temp with the need for external ducting. They are also engineered to efficiently reduce drying times.

1. Ambient air (cool) enters dryer.
2. Ambient air enters heat exchanger and is heated.
3. Ambient air (warm and dry) exits heat exchanger.
4. Process air (heated) enters drum to absorb moisture
5. Process air (wet) enters heat exchanger
6. Process air (dry) exits heat exchanger.
7. Process air enters heater where it is heated up.

Drain: Water is collected and pumped to drain.

What makes Bosch 24" Laundry unique?

Sleek Design

- Matching washer and dryer designs
- 3 design options
- Large washing capabilities in a small unit

Best in Class Installation

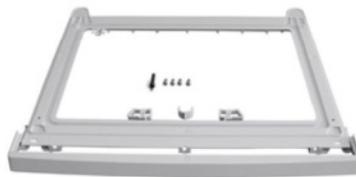

- Under counter, stackable, side-by-side installation
- Reversible dryer door (500 and 800)
- No need for duct for venting
- Washer plugs into the dryer- only 1 electrical plug needed
- Saves you money

German Quality

- Bosch is the European Market Leader for Washing Machines
- 15 min wash and 15 min dry – fastest combined wash & dry in the industry
- 1400 RPM spin speed
- Condensation Drying
- Energy Star qualified
- Exclusive Features:
 - AquaStop® and AquaShield® leak protection systems
 - Wave structured drum
 - Anti-vibration circular sidewalls reduces vibration

Pull Out Tray Stacking Kit
