

# 800 Series Refrigeration

## — FarmFresh System™ —

### Fresh by Design®

Advanced freshness system that keeps ingredients fresher, longer.

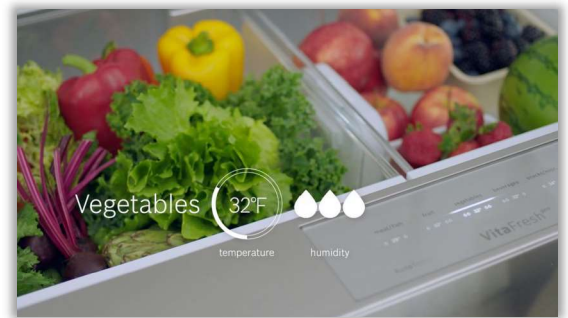

### 4 Innovative Technologies

Take food preservation to the next level and minimize food waste.

### VitaFreshPro®

Automatically **balances temperature & humidity** to provide optimal food storage performance—*an industry first!*

1

### FreshProtect®

Absorbs naturally occurring **ethylene gas** to slow down over ripening of produce.

2

### MultiAirFlow™

Evenly **circulates the air** with a proprietary, fan-assisted system—keeping everything from the gallon door bins to the back corners precisely cooled.

3

### AirFresh® Filter

Reduce odors in the fridge & freezer with this **carbon air filter**—designed to last the life of the unit.

4

# 800 Series Refrigeration

— Performance —

## Dual Compressors & Dual Evaporators

Provides efficient and precise cooling & humidity control for optimal freshness...*It's performance that's expected from built-in refrigeration—featured in freestanding units!*

## Internal Water Dispenser

Filtered water is dispensed with the touch of a button or by pressing a bottle upwards against the nozzle. Dispenser is discretely hidden inside the fridge to keep the front clean.

## Filtered Pyramid Ice

Unique pyramid shape provides more surface area and allows for more ice cubes to fit in each glass, ultimately slowing down the melting process as it cools each drink.

- **UltraClarityPro™ Water Filter**

Removes >99.9% of sediments and is so advanced, it's been certified by NSF – the leading regulatory agency

- **Stainless Steel Back Wall**

High quality materials deliver an eye-catching look while keeping the back of the refrigerator cold

- **FreshProtect® Ethylene Absorber**

Each unit includes 1—filter refills and additional cases are available as accessories (*sold separately*)

# 800 Series Refrigeration

## — Design —

### True Counter Depth

A built-in look and feel from all angles. The refrigerator sits flush with the countertop, has hidden hinges, discreet tucked away feet, and no grill in sight!

### Adjustable FlexBar®

The FlexBar® utilizes typically unused space in the refrigerator and can be moved from high to low. It features a variety of hanging selves—perfect for bottles, condiment jars, eggs, and more.

### Layered Freezer Drawer

The three-tier freezer drawer system creates extra storage for frozen items. Smart organization means that food doesn't get buried and forgotten.

- **Gallon Depth Door Bins**  
Each accommodate 2 gallon containers side-by-side for maximum storage
- **Tempered Glass Shelving**  
Half width shelves adjust easily for customized organization
- **LED Lighting**  
Crisp, energy efficient lighting from corner to corner
- **Full Width Chiller Drawer**  
Store large platters or organize snacks for quick access

# 800 Series Refrigeration

— Refreshment Center™ —

## Dual Compressors & Dual Evaporators

As part of the 800 Series, the organization, performance, and freshness features—including *dual compressors & dual evaporators*—remain in this unit!

## Glass Overlay Design

An exterior finish of premium tempered glass over brushed stainless steel paired with recessed handles delivers a contemporary, integrated look.

## Beverage Drawer

Two red oak shelves can hold up to 17 standard wine bottles, or 35 cans to offer dedicated beverage storage without the need for a second refrigerator elsewhere.

Achieve the perfect temperature & humidity level for any beverage without the guesswork—engage one of the 5 pre-programmed options or customize via Home Connect™.

- **Beverages** – 36°F
- **Beer** – 33°F
- **Champagne** – 43°F
- **White Wine** – 46°F
- **Red Wine** – 50°F
- **Custom** – 33°F to 50°F
